# Some Production Shows Gain During Year After V-E Day

By The Associated Press

NEW YORK, May 8.—Production in some lines neared a pre-war rate in the year after Germany was whipped, despite reconstruction, material shortages and labor strife, a survey showed today in V-E day's first anniversary.

As the soft coal strike moved along in its sixth week, however, the national output was severely affected. Dwindling stockpiles have prompted the government and industrialists to predict a paralyzing breakdown unless mining is resumed quickly.

In the first year since V-E day, industrial production prospects slowly improved after each major strike—including those in steel, automotive and other key fields.

Coal production slipped considerably in a year's time. The bituminous coal institute estimated output at 533,100,000 tons for the year ended today, compared with 602,929,000 in the last year of the European war.

**Coal Shortage Shows**

Soft coal shortages have been reflected in steel operations. For this week they are estimated at only 52.7 percent of capacity compared with 87.7 last week, 78.3 a month earlier and 93.1 a year ago.

**Auto Production Shows**

Automobiles—about 800,000 cars and trucks have been produced since last July 1, instead of a projected 2,500,000. The industry assembly plants are now more than four months behind schedule.

**Consumer Goods—supplies** range all the way from still extremely short to much improved. Current consumer shortages include meat, dairy products, sugar, hosiery, some men's clothing, including shirts, refrigerators, washing machines and interrupting mattresses.

The following items are in high-demand: demand, sometimes keeps them scarce: men's suits (highest output in history), shoes, most foods, some cotton and woolen goods and a few electrical appliances.

**Salaries and Wages**—economists recently estimated them at about 15 per cent lower than the wartime "take-home" levels put pointed out pay increases will help to balance this.

**The National Income**—including wage-earners and other people who receive money for goods and services, this figure has been estimated at near the wartime level of about \$165,000,000,000 yearly.

**Federal Debt**—the treasury statement on May 2, latest report, placed it at \$272,914,736,824 compared with \$358,287,558,195 a year earlier.

**Three Times Higher**

This was three times higher than the \$133,200,000, or \$1,200 a day, for the previous year, when wartime restrictions were still on.

**Farm Implementations**—International Harvester Co., one of the biggest producers in the world, estimated production at about one season behind—almost two months. A strike lasting roughly 25 days helped slow output. The company is feeling some shortage of coal and steel.

**Radio—the Radio Manufacturers' association in Washington** said slightly fewer than 2,500,000 sets have been made since the end of the war.

**Taxes**—this important item for the average consumer is more pleasing now. This table graphically explains it:

	1915	1915	1915
Salary (married, two children)	No tax	\$ 2.25	\$ 2.25
	\$137	\$137	\$137
	\$1,000	\$1,000	\$1,000
	\$208	\$208	\$208
	\$439	\$439	\$439

**Salaries and Wages**—economists recently estimated them at about 15 per cent lower than the wartime "take-home" levels put pointed out pay increases will help to balance this.

## Boyle Puts in Plug For Heroic First Army

By HAL BOYLE  
 AP Newsfeatures Writer

BERLIN, May 8.—One year ago this week the finest army that ever fought under the American flag reaped battle operations, its victory won.

This was the United States First Army.

Because neither of the two men who commanded it had a flair for personal publicity, it never had the acclaim won by General George Patton's famous Third Army. It galls many wearers of the square black "A" shoulder patch that the public and some staff officers of the Third Army still believe that Patton engineered the break-through at St. Lo, took Paris and made the initial crossing of the Rhine.

All these and many more battle feats were performed by the First Army. No outfit has suffered more from the public adulation of that great and grand figure, George Patton, than the patient First Army.

Let's thumbtack the old battle maps back on the wall, and give them an anniversary gander.

They show us that it was the First Army that spearheaded into Normandy in the greatest amphibious operation of the war.

**Captured Cherbourg**  
 It was the First Army that captured Cherbourg, first great continental port to fall.

It was the First Army that broke the German defensive crust at St. Lo, turning the battle of France into a hare-and-hounds chase.

Some Patton divisions were in the attack but the main wedge was the First Army troops.

It was the First Army that took Paris. The American Fourth Infantry division had to boot sky-larking French tankmen into town to claim the glory of liberating their own capital. The Third Army was miles away and heading toward Metz.

It was the First Army that first entered Germany on September 11, 1944.

It was the First Army that captured the first German city, Aachen.

It was the First Army that first crossed the Rhine river by the epic seizure of the Ludendorff bridge at Remagen.

It was the First Army that made the longest armored march in history in a single day during the smash from the Rhine, a feat accomplished by the late Maj. Gen. Maurice Rose, commander of the Third Armored division.

It was the First Army alone

that attacked simultaneously in two directions, taking more than 260,000 prisoners in the "Rose pocket" in the Ruhr to the west while driving steadily eastward toward the Elbe river.

**First To Meet Reds**  
 And it was on the banks of that stream that the First Army first made contact with the Russians, ending Europe's greatest squeeze play and the war.

The First Army was led in turn by Gen. Omar N. Bradley of Missouri and later Gen. Courtney H. Hodges, a gentleman from Georgia who began Army life as a private.

Patton and the Third Army did a swell job. But he does not need and never wanted the credit that belongs to the First U. S. Army.

## GAS RATE BOOSTED BY GALION COUNCIL

Increase Due After Three Years at Old Scale.

**GALION, May 8.**—An eight-year rate ordinance of the Ohio Fuel Gas company, to replace the present ordinance with the city which expires this July, was passed by city council Tuesday night.

Present rates will be effective for the first three years of the ordinance, but the last five years shows a raise in rates which will affect consumers who use gas for heating purposes.

In the last five years of the ordinance consumers using 15,000 cubic feet of gas will pay 25 cents more than present rates, while consumers of 20,000 cubic feet will have a hike of 50 cents, and consumers of 25,000 cubic feet will pay 75 cents more than at present.

Over and above 25,000 cubic feet, the rates will be the same as now. The minimum charge for each customer each month is \$1.00.

Council was petitioned for the construction of a sanitary sewer, beginning at Hartman and South Market streets and running the full length of Hartman street, then north on South Boston street to Croft street. This was referred to the street and sewer committee.

Paul Zellars submitted a fee of \$275 for the preparation of computed rate schedule for the city and country light rates of the Galion Municipal Light and Power plant, and for computed rate schedules of the city water service. The indexed cards prepared are for about 2,200 consumers. The index cards became missing recently, and had to be replaced.

The Galion Youth Center asked council for help in securing a site for a new youth center, and this was referred to the rules and

**Bucyrus Jaycees Receive Charter**  
**BUCYRUS, May 8.**—At a banquet held in the Elks home Monday night Bucyrus' newly formed Junior Chamber of Commerce received its charter and formally became the official Jaycee body of the city.

The charter was presented to the newly chosen president, Iven Clady, by Charles B. Hazlett, head of the Jaycee organization of Ohio.

Guests from out of the city included A. Ronald Ansley, a past state president; Ben Smolin, president of the Plymouth Jaycees; Herb Goltz, president of the Shelby organization; and Robert L. John, state executive secretary.

ordinances committee. A suggested site south of the city building will be needed for city purposes, Mayor William Amann pointed out.

## Bucyrus Gives Talk to Crestline Group

**CRESTLINE, May 8.**—Mrs. Edwin Stump, child welfare chairman, presented Mrs. Clifton Reck of Bucyrus, the county health nurse who spoke on child welfare work at a meeting of the American Legion auxiliary Monday night, presided over by Mrs. M. V. Snyder.

Mrs. Thomas McCreary, Poppy day chairman, announced her captain for the sale May 23. Tag day for the cancer drive was announced for May 11. Members having flowers to donate for Mother's Day are requested to notify Mrs. H. C. Hagan or Mrs. E. G. Smith before Saturday. A business meeting was planned for May 20.

Mrs. Paul Post was general social chairman. Miss Kathryn Mayner, received the bridge prize. Miss Anna Herman, pinophile and Mrs. Bernard Hermann, rummy.

## Crestline I. O. O. F. Gives Degree Work

**CRESTLINE, May 8.**—The second degree was conferred when the I. O. O. F. met recently.

E. P. Grim and E. H. Jenkins, managers of the soft ball team, recommended this season's club to be a sponsored team instead of a membership team.

Plans were made to hold a fish fry May 24. Initiatory degree will be conferred the next meeting.

## UPSET STOMACHS YIELD INCHES OF GAS AND BLOAT
